

WORKSHEET: WRITING A MARITAL HISTORY FOR YOUR LAWYER

Your marital history will help your lawyer understand how your marriage worked or did not work, what outside influences have contributed to your marital problems, and, especially, what barriers your lawyer may face in assisting you and your spouse to amicably resolve your divorce.

Your lawyer can best protect you and your interests and plan for your case by knowing as much as possible about what to expect when you and your spouse begin the legal process. The more you include, the better. Take your time.
